The Division Of

Director's Review

I was introduced to Val Plushko who is the VP of Pavers Expert while he was doing a project in the Wynmoor Community. I had inquired about having the pavers done and received three bids. In comparison to the other companies he gave us **much more for the price**. The **workmanship was phenomenal**. They took pride in their work and at days end they made sure **everything was neat and clean**. Val came every day to make sure that **everything was going as planned**. He was available to answer any and all questions or concerns.

I am **extremely pleased with Paver Expert and highly recommend that company** to anyone that needs a job done well.

Thank you,

Dave Sabatano Director
2005 Granada Wynmoor Community
